NEW! J-FOLD SHOPPING BAGS

FOB: Brea CA, 92821 | Portland, TN 37148

Material: 120 GSM Paper with 40% post-consumer recycled content

FEATURING THE CLEAN LINES OF A FOLD-OVER TOP EDGE AND STURDY J-FOLD HANDLE CONSTRUCTION.

ECONOMICAL & MORE SLEEK

Twisted-handle kraft paper shoppers get a new look with a folded turn-top style opening and J-fold handle construction. The fold-over top offers a smooth and sleek look, and the inner J-fold offers a sturdier handle. These bags are the perfect choice for brands interested in an economical and environmentally friendly kraft shopping bag with a strong handle and a polished appearance.

Price includes 1 color 1 location Hot Stamp run charge only. Foil Hot Stamp plate charge: \$50.00.

Decoration Note: Only 1 color, 1 side imprinting is possible. Please specify step & repeat spacing - available from 1/2" to 24" apart.

Only the following Hot Stamp Foils are available on this item: Satin Gold, Satin Silver, Metallic Gold, Metallic Silver, Metallic Rose Gold, Metallic Gun Metal, Matte Black, and Matte White.

IMPRINT METHODS

FLEXOGRAPHIC INK

Products ran through a flexible photopolymer plate placed on a rotating drum. This process allows for high volume printing.

A cost-effective imprinting process available on most paper bags and plastic bags.

FOIL HOT STAMP

By using an engraved magnesium plate, heat and pressure, the foil stamp is adhered onto the bag.

Available on boxes, ribbon and most paper and plastic bags. This method provides an upscale elegant look sure to compliment any logo.

SILKSCREEN

By applying ink onto a surface through a prepared screen made from a fine mesh.

Available on non-woven polypropylene, ripstop polyester, and cotton products.

HEAT TRANSFER

A four color process and/or Pantone® color(s) printed on a heat transfer material then heat pressed onto the product.

Available on most non-woven polypropylene, ripstop polyester, cotton, RPET products and uncoated paper bags.

ARTWORK GUIDELINES

INK FLEXO

Colors must be separated by at least 1/2" to allow for color movement. Please note that some color overlapping may occur. More than 1 spot color imprinting is not available on some products. Minimum requirement for line thickness is 1 stroke point. Reverse out printing line thickness is 2 stroke points to avoid losing fine details.

Important Notes: Artwork with a border, large coverage and/or fine print is not recommended as it may not produce a good quality imprint. Boxed artwork exceeding 5" x 5" will need approval. Submit for review.

Halftones - flexographic Ink

For best results, halftones should range from 20% to 40%. Our standard halftone printing is 35LPI, at a 45 degree angle. Artwork containing halftones must be pre-approved.

| | Line Screen - 35LPI | | |
|--|---------------------|-----|-----|
| Halftones are not recommended for Hot Stamp or Silkscreen. | 20% | 30% | 40% |

FOIL HOT STAMP

A movement of about 1/32" to 1/16" per color will occur. Designs with tighter registration must be pre-approved. More than 1 spot color imprinting is not available on some products. Minimum requirement for line thickness is 1 stroke point. Reverse out printing line thickness is 2 stroke points to avoid losing fine details.

Important Notes: Artwork with a border, large coverage and/or fine print is not recommended as it may not produce a good quality imprint. Boxed artwork exceeding 5" x 5" will need approval. Please submit for review.

SILKSCREEN

Color registration requirements are minimal, but do exist and must be pre-approved. Please note that some color overlapping may still occur. More than 1 spot color imprinting is not available on some products. Minimum requirement for line thickness is 1.5 stroke points.

Important Notes: There is more movement when Silk Screening on insulated products. Thicker text is recommended for textured products. Artwork with large coverage and/or fine print is not recommended as it may not produce a good quality imprint. Please submit for review.

COLOR MAGIC

Color Magic is not subject to space requirements and is therefore ideal for designs requiring multi-color and close registration.

Color Magic is available as a CMYK Process Heat Transfer and also as a Pantone® Match Heat Transfer.

CMYK Process Heat Transfer: Images should be in CMYK at a minimum of 300 dpi and provided at actual size. Minimum requirement for line thickness is 4 stroke points.

Pantone® Match Heat Transfer: For vector based art, Pantone® colors are preferred and will render a more vibrant print. Please note 2 Pantone® color art is the same price as CMYK artwork. More than 2 Pantone® colors will incur additional charges, please see page 100 for pricing details. Minimum requirement for line thickness is 1 stroke point.

Important Notes:

- With PMS match orders, the colors Black and White are each considered a match.
- For best results, some minor adjustments may be required. These minor adjustments will be noted on your viewing file proof for approval.

Additional Notes: Our imprinting processes operate in a post-production environment in which imprinting takes place on a product which is already constructed. In some cases folds and creases produced in manufacturing the bags result in some restrictions that may impact certain artwork's printability and available imprint area. Also, artwork position on post-printed products may vary slightly from product to product due to manual feeding.

FILE SPECIFICATIONS

When submitting artwork, please follow the recommendations on this page to help ensure the best quality of your imprint. Artwork not meeting these standards may incur additional production time and charges.

Submitting Artwork

- Email: Please send your art files and purchase order together and state PO# and company name in the subject line.
- For large files (anything exceeding 7 mb) we recommend using our file sharing website. Here's how:
 1. Go to
 2. Select the files you wish to upload.
 3. Be sure to reference your PO# in the message field.
 4. Hit Transfer.
 5. You will receive E-mail confirmation once your files are received.

Accepted Programs and File Formats

PREFERRED PROGRAMS

Adobe Illustrator - Saved as **.ai**, **.eps** or **.pdf** - Fonts converted to outlines.

ACCEPTED PROGRAMS

Corel Draw - Export files as **.ai** - Convert all text to curves.

Freehand - Export files as **editable EPS** - Convert all text to paths.

Fonts

All fonts must be converted to outlines/curves/paths. Be sure to send all screen and printer fonts. If fonts are not properly sent delays on your job can occur.

Free fonts used for typesetting:

- Times New Roman
- Arial

Mechanical Artwork

Mechanical art is camera-ready and is the size to be printed; is crisp black and white; requires no touch-up.

Digital Artwork

The best and highest quality imprints are made from VECTOR ART.

VECTOR ART is made up of paths which are defined by points, lines and curves and represented by mathematical equations. Vector art can be scaled to any size and retain its proportions, sharpness and detail at no loss in quality.

Note: A scanned image (e.g. .jpg, .gif, .bmp, .tiff, .psd, .pdf) or art created in a photo/paint program is not vector art, it is a raster image.

RASTER IMAGE is a collection of pixels or dots arranged in a rectangular grid known as a bitmap. Scaling a raster image to a larger size results in a loss of quality as the pixel squares get bigger and create jaggy edges on the image. In addition, placing, linking, embedding, or copying these images into a drawing program does not convert them into vector art and will not meet our art requirements. If raster images are the only available art, they must be at least 300 dpi at actual print size.

Vector Vs. Bitmap

Vector will retain its integrity when the size is modified. The bitmap loses its quality when it is enlarged because each individual pixel is increased.

Resolution

Amount of pixels in an image, measured in dots per inch (dpi).

| \$131 | \$165 | \$222 | \$267 |

Measure WIDTH & HEIGHT, ADD 1-1/2" to each dimension, then multiply WIDTH X HEIGHT to = TOTAL SQUARE INCHES.

INK COLOR SELECTION

PMS COLOR MATCH CHARGE (Now available from BOTH our California and Tennessee locations): \$80

Important Note: PMS matching is available on White bags only. We will custom mix colors to get closest match to your requested PMS color but an exact match can not be guaranteed.

The PMS colors indicated are only reference approximations of actual colors printed on white bags. Bag color will alter the shade, tone or hue of the ink, especially light color foil - such as white - on dark color bags. Certain ink and bag color combinations are not recommended. Please call for more details.

NOTE: Kraft paper bags tend to absorb ink, causing color variance that can make colors look slightly muted in tone.
