POST PRINTING LOW MINIMUMS - QUICK TURNAROUND

HOT STAMPING – OUR MOST POPULAR IMPRINTING PROCESS!

For a metallic image, hot stamping is the best option. A plate is created, then through heat and pressure, the foil is transferred to the surface of the product. We offer a wide range of foil colors including metallic, matte and gloss. See the color selection on page 4. Customize your packaging for \$.17 per bag/\$.12 per box or merchandise bag.

INK PRINTING

Fast and economical, ink printing is a process through which ink is transferred from a flexible plate to a product's surface. Ink printing is best for 1- or 2-color designs when tight registration is less critical. It's ideal for printing uncoated boxes and bags allowing for better ink absorption. See the color selection on page 5. Promote your brand for \$.11 per bag/\$.07 per box or merchandise bag.

SILK SCREEN PRINTING

Ink is transferred to a product through a fine screen. This method is very precise and is ideal for non-woven bags or when multiple colors are needed and registration is critical. It's also a great choice when you have specific PMS colors to match. See the color selection on page 5. Customize your packaging for \$.29 per bag.

HOT STAMP, INK PRINT & SILK SCREEN ORDERING INFORMATION

MINIMUM ORDER - The minimum order is one case.

PRICING - Printing, plate charges and freight are in addition to the product cost.

QUANTITY PRICING - Products (paper bags, plastic bags, boxes) may be combined for the minimum printing charge as long as the same plate and same color are used. Orders requiring a different plate size or a different color cannot be combined to meet the minimum printing charge.

An order involving two plates for two different product sizes constitutes two separate jobs. Each job will be priced separately to determine printing charges.

Orders for combined products (bags & boxes) will be priced at the higher minimum printing price.
Example: 250 shopping bags and 250 boxes will both be priced at the higher minimum if combined.

LEAD TIME - Imprinting is our specialty. You can expect a quick turnaround once the art is approved.

UNDER RUN - Orders are subject to a 5% under run; the full order quantity will be invoiced.

CUSTOM COLORS - There is a \$75.00 charge per color.

PROOFS - A proof will be provided for final approval. A press proof is available for a charge of \$50.00.

ARTWORK - Print-ready artwork is required; otherwise additional art charges may apply. Faxes are not acceptable for reproduction. Artwork must be submitted with fonts or outline type. All non-standard fonts must be supplied. Artwork must be submitted in a vector graphics format using Adobe Illustrator.

ART PREP - \$50.00 flat fee charged for basic art preparation and copy changes when supplied art is not print-ready.

ART DEVELOPMENT - \$100.00 per hour with a 1 hour minimum for developing art for post printing. This includes: creating logos or art from concept, changing low resolution files to vector files, finding specific fonts when not identified or supplied by customer, changing multi-color art to single color and other more complicated art requests.

ART DEVELOPMENT REQUESTS - Submit art and art development requests to artwork@shamrock1.com. You will receive a quote for approval to proceed. Art charges will be invoiced along with job cost.

NOTE:

- Maximum print area information is located on the appropriate product pages.
- Eurototes, frosted shopping bags, and gloss coated bags cannot be ink printed. Products with ultra gloss coating cannot be hot stamped.
- Hot stamped designs that include continuous borders do not print well.
- Fine lines and large prints with reverse-outs do not print well and art may need to be modified.
- Halftones or screens cannot be hot stamped, ink printed or silk screened.
- Active plates will be placed in inactive status after 2 years and destroyed after 3 years.
